

K-love means so much to my family. I never have to worry about what my kids are going to hear, and we listen to it alot. It is the only radio station I allow in my home. If I hear someone is going through a hard time I recommend that they listen to 91.1 k-love. It is positive and encouraging to me, and I believe it helps people with no hope. Please leave k-love alone, it would be hurtful to many Americans if you take the airways from us. Thank you in advance from a mother of two boy's whom is an avid listener of k-love. I don't think I would even turn my radio on anymore if k-love wasnt on the air. I would start investing in cd's.

Sincerley,
Cindy Sittner
